

MRCP(UK) Part 1 online FAQs

General

Q. What is remote proctoring?

A. Remote proctoring is where your exam is taken online in a remote location – i.e. not in a test centre or shared exam room and is monitored by a ‘proctor’(or invigilator) via your webcam and a screenshare. The proctor is online throughout the exam and makes a note of any potential violations. They can also offer support if you have a question or need help – for example with a technical issue. They cannot help with questions about the exam itself.

Q. What software is being used to administer exams online?

A. You will take your exam using Practique and the proctoring will be provided by Examity. Proctoring uses a video link with either Zoom or Go To meetings
