## Medical Ophthalmology capabilities in practice (CiPs) mapping to 2015 curriculum competencies

<table>
<thead>
<tr>
<th>Capability in practice (CiP)</th>
<th>Mapping to 2010 curriculum competencies</th>
</tr>
</thead>
</table>
| 1. Managing and leading a multidisciplinary medical ophthalmology team, including management of an outpatient clinic and injection list | P52-53 Ocular and orbital inflammation  
P53-54 Neuro-ophthalmology  
P44-45 Retinal disorders  
P59 Intraocular injection therapy  
P64 Dermatology  
P65 Diabetes and endocrinology  
P65-66 Diabetes retinal screening  
P66 Infectious diseases  
P67 Medical genetics  
P68 Renal medicine/transplant medicine/systemic vasculitis  
P68-69 Rheumatology |
| 2. Diagnosis and management of acute medical ophthalmology emergencies | P43-45 History taking  
P45-47 Clinical examination  
P47-49 Ophthalmic investigations  
49-51 Core ophthalmic practice  
P52-53 Ocular and orbital inflammation  
P53-54 Neuro-ophthalmology  
P44-45 Retinal disorders  
P56-58 Pharmacology and therapeutics  
P64 Dermatology  
P65 Diabetes and endocrinology  
P66 Infectious diseases  
P68 Renal medicine/transplant medicine/systemic vasculitis  
P68-69 Rheumatology |
| 3. Diagnosis and management of patients with medical ophthalmic conditions, including those with complex conditions, long term conditions and those on immunosuppressants | P42 Visual system biology and optics  
P43-45 History taking  
P45 Clinical examination  
P47-49 Ophthalmic investigations  
P49-51 Core ophthalmic practice  
P52-53 Ocular and orbital inflammation  
P53-54 Neuro-ophthalmology  
P44-45 Retinal disorder  
P56-58 Pharmacology and therapeutics  
P60-62 Visual rehabilitation and management of long-term conditions  
P64 Dermatology  
P65 Diabetes and endocrinology  
P65-66 Diabetes retinal screening  
P66 Infectious diseases  
P67 Medical genetics  
P68 Renal medicine/transplant medicine/systemic vasculitis  
P68-69 Rheumatology |
