

SCE in Endocrinology & Diabetes Blueprint

Candidates are tested on a wide range of common and important disorders as set out in the syllabus of the curriculum.

The composition of the paper is as follows:

Topic	Number of questions*
Diabetes mellitus (diagnosis and general management, delivery of diabetes care)	28
Diabetic emergencies and management during acute illness/surgery	12
Complications of diabetes	28
Hypothalamus and pituitary	20
Thyroid	36
Adrenal	20
Gonads	20
Parathyroid/calcium	16
^Other	20
Total	200

* This should be taken as an indication of the likely number of questions – the actual number may vary slightly.

The questions in each category are distributed across both papers.

^ Other is made up of the following topics:

Appetite/weight
Genetic
Miscellaneous conditions
