2018 NATIONAL TRAINEE SURVEY RESULTS

IMMUNOLOGY

GENERIC INDICATORS

SEPTEMBER 2018

Warren Lynch / Aidan Simpson
Quality Management Team
Joint Royal Colleges of Physicians Training Board
Introduction

The National Trainee Survey is an annual survey commissioned and administered by the General Medical Council (GMC). The survey has been in place since 2010.

The purpose of the survey is to gather feedback from trainees to help local education providers such as hospitals and general practices improve their training practice. It also helps postgraduate deaneries/local education and training boards (LETBs) manage training programmes, which are usually delivered across a number of different local education providers (LEPs). The GMC use red and green colour coding to highlight results that are significantly above or below the average to help identify areas for investigation.

The trainee survey is comprised of a set of generic questions which test trainees’ perceptions of training providers’ compliance with the GMC standards, and specialty specific questions set by Royal Colleges and Faculties which test their perceptions of the quality of delivery of the curricula. It is a unique opportunity for managers of training programmes to hear the views of their trainees.

The generic questions test trainee’s perceptions of the following areas:

- Overall satisfaction
- Clinical Supervision
- Clinical Supervision (out of hours)
- Reporting Systems
- Workload
- Teamwork
- Handover
- Supportive environment
- Induction
- Adequate Experience
- Curriculum coverage
- Educational Governance
- Educational Supervision
- Feedback
- Local Teaching
- Regional Teaching
- Study Leave
- Rota Design (new for 2018)

Responses are colour coded as follows:

<table>
<thead>
<tr>
<th>Colour</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Red</td>
<td>Below outlier</td>
</tr>
<tr>
<td>Light Red</td>
<td>Within the lower quartile (Q1), but not a below outlier</td>
</tr>
<tr>
<td>Ice Blue</td>
<td>Within the middle quartile (Q2/IQR)</td>
</tr>
<tr>
<td>Lime</td>
<td>Within the upper quartile (Q3), but not an above outlier</td>
</tr>
<tr>
<td>Green</td>
<td>Above outlier</td>
</tr>
<tr>
<td>Grey</td>
<td>3 or less trainees, result not published</td>
</tr>
<tr>
<td>Yellow</td>
<td>0 trainees completed the survey, no result</td>
</tr>
</tbody>
</table>
Red – The score for the indicator is significantly below the national score in the benchmark group. A score is defined as being a below outlier if it meets all of the following criteria. The upper 95% confidence limit associated with the indicator score must be below the lower 95% confidence limit of the benchmark indicator mean score. The mean of the indicator score must be below the lower quartile (Q1) score of the benchmark group.

Green - The score for the indicator is significantly above the national score in the benchmark group. A score is defined as being an above outlier if it meets all of the following criteria. 95% confidence limit associated with the indicator score must be above the upper 95% confidence limit of the benchmark indicator mean score. The mean of the indicator score must be above the upper quartile (Q3) score of the benchmark group.

Light Green – The confidence interval overlaps with the inter quartile range, which could indicate that trainees’ perceptions are positive. Result is in the 3rd quartile, but not an above outlier for the indicator result.

Pink – The confidence interval overlaps with the inter quartile range, which could indicate that trainees’ perceptions are negative. Result is in the 1st quartile, but not a below outlier for the indicator result.

White – Result is within the inter quartile range, suggesting that result for this indicator are average.

Grey – Insufficient number of respondents for the indicator result, n<3.

Yellow – There are no respondents for the indicator result.

30 Immunology trainees completed the 2018 survey comprising of 4 ST3s, 7 ST4s, 9 ST5s, 8 ST6s and 2 ST7s. This was an increase of one trainees compared to 2017. The numbers of trainees in each Deanery / LETB completing the survey were as follows:

<table>
<thead>
<tr>
<th>Deanery / LETB</th>
<th>2017</th>

Executive Summary

3 of 14 regions had data available in 2018. Deaneries / LETBs with red and green flags and their mean scores for the indicator concerned can be seen below:

Deaneries / LETBs with red flags in 2018

There were no Deanery / LETB red flags reported in Immunology in 2018.

Deaneries / LETBs with green flags in 2018
