

## Mapping of presentations in CMT and AIM to specialties

The tables below map top and other important presentations in core medical training (CMT) and acute internal medicine (AIM) to the specialties which may be encountered in training programmes.

Specialty placement checklists are available for Cardiology, Dermatology, Endocrinology, Gastroenterology, Geriatric Medicine, Infectious Diseases, Neurology, Palliative Medicine, Renal Medicine, Respiratory Medicine and Rheumatology (please see CMT and AIM webpages on JRCPTB website [www.jrcptb.org.uk](http://www.jrcptb.org.uk))

Top presentations	AIM	CARD	CPT	DERM	E&D	GAST	GUM	GERI	HAEM	ID	NEURO	PALL MED	REHAB	RENAL	RESP	RHEUM
Abdominal Pain	√					√										
Acute Back Pain	√															√
Acute kidney injury and chronic kidney disease	√													√		
Blackout / Collapse	√	√						√								
Breathlessness	√	√													√	
Chest Pain	√	√													√	
Confusion, Acute / Delirium	√							√								
Cough	√														√	
Diarrhoea	√					√				√						
Falls	√							√								
Fever	√									√						
Fits / Seizure	√										√					
Haematemesis & Melaena	√					√										
Headache	√										√					
Jaundice	√					√										
Limb Pain & Swelling	√	√						√							√	
Palliative and End of Life Care	√							√				√				
Palpitations	√	√														
Poisoning	√		√													
Rash	√			√												
Vomiting and Nausea	√					√						√				
Weakness and Paralysis	√							√			√					

Other important presentations	AIM	CARD	CPT	DERM	E&D	GAST	GUM	GERI	HAEM	ID	NEURO	PALL MED	REHAB	RENAL	RESP	RHEUM
Abdominal Swelling & Constipation	√					√						√				
Abnormal Sensation (Paraesthesia and Numbness)	√							√			√					
Aggressive / Disturbed Behaviour	√							√								
Alcohol and Substance Dependence	√					√										
Anxiety / Panic disorder	√											√
